

# Motto

profim

Add a splash of colour to your office.

Motto is a fully upholstered, ergonomic swivel chair with elegant lines. Fabric on the back support makes it perfect for working in modern office spaces, as well as at home, and it provides a dash of refreshing colours to any room.

H K A

Thanks to its "soft" and pleasant character, the Motto chair is a perfect addition to your home office, where an aesthetic appearance is the key. The choice of dozens of fabric patterns, as well as the possibility to combine two colours on one chair, provide limitless arrangement options.

Motto brings life to interiors

and provides ergonomic solutions

Specially designed frame covered with cold molded foam makes the back support extremely flexible and allows for dynamic adjustment to the user's body.

# Ergonomics + Motto

Working at a desk means moving constantly. We shift our position, center of gravity, and adjust the pressure exerted on the back support. The idea behind a swivel chair is to make it follow our body and support the spine properly. The use of a unique technology helped create height adjustable and extremely flexible back support.

## Flexible inner frame

Enables easy backwards and sides backrest movement.

## Adjustable armrests

Thanks to height adjustable armrests there is possibility to find a natural position that comfortably supports the wrists and forearms. Armrests are equipped with soft pads.

## Synchro Mechanism

Synchronous seat and backrest movement gives the feeling of healthy support in every seating position. The tension can be adjusted to accommodate users of different sizes. Mechanism can be locked in one of five positions (S/SL versions) or one of four positions (SFL version).

## Tilt force adjustment

The weight adjustment feature is easy and quick to use – just a few turns of the control knob covers the complete weight range.

## Seat height adjustment

Allows to adapt the height of the seat with a simple pull of the lever.

## Seat depth adjustment

The sliding seat guarantees optimal legroom helping to improve blood circulation and avoid pins and needles (SL/SFL mechanism).

## Seat/backrest tilt adjustment

An additional forward tilt allows to sit forward in the chair during highly task-intensive work (SFL mechanism).

Example configuration:  
MOTTO 10SFL BLACK P61PU

# Elegance + comfort

Motto is a perfect combination of both these features.

## Upholstered adjustable backrest

The back fabric is stretched across the frame and properly tensioned to provide great lumbar support. The provision of different colours of upholstery facilitates personalization.

## Seat profile

A perfectly shaped seat guarantees maximum legroom and reduces pressure on the thighs.

## Synchro Self Mechanism

The self-weighting automatic synchro mechanism senses user's weight and automatically provides the right amount of support through the full range of recline motion. Mechanism (ST/STL) can be locked in the upright position.

## Comfort choice

Can be easily toggled between two types of comfort: relaxed or supportive.

## Seat height adjustment

Adjusts the height of the seat with a simple pull of the lever.

## Seat depth adjustment

The sliding seat guarantees optimal legroom helping to improve blood circulation and avoid pins and needles (STL mechanism).

## Seat/backrest tilt adjustment

Seat/backrest tilt with the possibility of recline in two positions.

Example configuration:  
MOTTO 10STL BLACK P60PU

Backrest

Mechanism

Upholstered

Adjustment of backrest height (90 mm).

10

Synchro

S

Adjustment of seat height (130 mm).  
Synchronising mechanism with the possibility to adjust the resilience of the backrest to the weight of the sitting person.

SL

S mechanism with function of sliding seat (60 mm).

SFL

SL mechanism with function of additional seat / backrest tilt.

Synchro Self

ST

Adjustment of seat height (130 mm).  
Synchronising mechanism with automatic adjustment of the resilience of the backrest to the weight of the sitting person.

STL

ST mechanism with function of sliding seat (60 mm).

Base

Armrests\*

Upholstery\*\*

**Black**

Material: polyamide.

**BLACK**

**Fixed armrest**

Polyurethane pad.

**P60PU**

**Chrome**

Material: polished aluminum.

**CHROME**

**Adjustable armrest**

Height adjustable (80 mm) with soft pad.

**P61PU**

**Adjustable armrest**

Height adjustable armrest (80 mm), sliding soft pad ( $\pm 50$  mm) with span option ( $\pm 30$  mm).

**P59PU**

## Type & Colour

**SYMBOL**

\*\* Option of mixing two colours of the same fabric according to below scheme:

A - front of seat and backrest,

B - sides of seat, rear part and sides of backrest.

In case of order of such option, following example should be specified: ST-5/ST-6 (where ST-5 – A, ST-6 – B).

## Additional

### Castors / Glides

**HARD**

For soft floors.

**SOFT**

For hard floors.

**TEFLON**

Universal.

Castors are equipped with a brake that prevents the chair from "moving away" without a load.

\* Armrests are always black, irrespective of the colour of base.

# Profim and the Environment

In our operation we follow the sustainability principle. We operate in a responsible manner for the benefit of our customers, employees, suppliers, and the local community, but we always respect the environment.

## Design and Development

A carefully considered design means a timeless and robust product that will serve the user for many years.

Motto chairs are designed in a way that allow us to produce them with the smallest possible amount of materials and components, allowing for easy recycling at the end of the life cycle. It is also important to design the production process in an optimal way, so that the amount of wasted raw materials is minimized.

Designed in order to minimize the amount of hazardous substances used for production (such as chrome, cadmium or mercury).

## Materials and Components

Materials and raw materials used for production must not only meet certain quality criteria, but also cannot contain hazardous compounds, harmful to humans and the environment (such as PVC, chrome(VI), mercury, lead).

Polyurethane foams do not contain organic compounds (e.g. CFC, PFC, H-CFC).

All wood-based raw materials that we use come from responsible and regulated forest industries. We are FSC® certified.

We work closely with our suppliers to reduce our collective impact on the environment. We encourage them to optimize processes and require that they conform to a number of environmental standards.

## Production and Waste Management

We use environmentally-friendly technologies; our chrome-plating facility uses the eco-friendly Chromium(III) technology; the paint shop uses an eco-friendly, certified powder paint.

We optimize and reduce electricity consumption, and make sure that process water is reused in the production process.

Production waste is segregated for recycling and only sent to authorized parties; some of our waste is reused in the process.

Product packaging is made of recycled cardboard.

## Delivery Logistics and Transport

We manage the transport fleet on our own, which allows us to optimize the use of trucks delivering our products to the clients and analyze transport on the go in terms of route selection in order to minimize fuel consumption. In addition, we combine deliveries with material pickups from our suppliers.

With the support of specialized information systems we can manage shipments in order to maximize vehicle capacity.

In order to achieve our goals, we have implemented Environmental Management System based on the ISO 14001 standard, which allows for a comprehensive approach to ecology.

We take into consideration and evaluate the way Motto products affect the environment during their entire life cycle, including design, implementation, and production, as well as order processing and delivery, use, and recycling.

## Using the Finished Product

All Motto chairs come with a 5-year warranty, even though they can be used a lot longer, due to their high quality and durability.

Using the chair does not cause any effects that could be harmful to the environment or human health.

## Recycling Used Products

Motto chairs can be dismantled with standard, generally available tools.

The cardboard packaging is 100% recyclable.

The chairs are 91% recyclable.
